

Issue Number: 4

Dated: 08/01/2016

Firemark Limited is a nationally operating fire extinguisher supply, installation and maintenance business with a Head Office in Bridgwater, Somerset. Firemark operate an Environmental Management System in accordance with the Environmental management standard, ISO 14001:2004

Firemark:

- Is committed to minimising its significant impacts upon the environment that may occur as a result of any aspects of the products and services we offer.
- Will work to ensure that our legal obligations and stake holder requirements, are met through monitoring changes in legislation and keeping up-to-date with best practice.
- Has undertaken to continually improve its environmental performance through ensuring that key objectives are set, measured and that action is taken to achieve them.
- Our key environmental objectives are:
  - Take precautions to prevent pollution that may be caused through our operations
  - Reduce our consumption of resources used in our operations
  - Manage our waste streams and seek to eliminate, reduce, reuse or recycle our waste where practical.
  - Use suppliers with good environmental credentials (i.e. ISO14001 certification)
- Will set measureable targets to achieve these objectives and monitor improvements in environmental performance.
- Recognises the important role its employees play in achieving this policy. They will be made aware of their environmental responsibilities and appropriate training and resources will be provided.

This policy is communicated to all employees within the company and is available in our product literature.

Stephen Ward  
Managing Director
